Profile:

Computer Science student at the Open University of Israel with a strong passion for Backend development, Embedded systems, and Cybersecurity.

I am especially drawn to low-level programming, system logic, and working close to the terminal.

Eager to apply my knowledge to solve complex problems and grow within a high-impact engineering team while completing my degree.

Education:

The Open University of Israel – first year Computer Science student.

Certifications (In-Progress): TryHackMe Pre-Security (SEC0)-focus on Network Security & Linux.

Skills:

- Languages: C, Java, Python, HTML, CSS, JavaScript.
- Tools & Systems: Linux (CLI), Git & GitHub.
- Soft Skills: Teamwork, Fast Learner, High Reliability Under Pressure.
- Languages: Native Hebrew | Fluent English.

Experience:

Sales Representative | Office Depot | 2021 - 2023

- Utilized comprehensive technical knowledge to assist customers with technology products and services.
- Built and maintained strong client relationships through exceptional service and prompt inquiry resolution.
- Conducted product demonstrations and troubleshooting sessions for various hardware and software solutions.

Shift Supervisor | Yes Planet | 2019 - 2020

- Supervised daily operations and managed teams in a high-volume, fast-paced environment.
- Resolved complex customer concerns and technical issues promptly to ensure operational continuity and satisfaction.
- Managed inventory and provided comprehensive training to new staff on company protocols.
